

CONFERENCE CALL TO ACTION

Our country is in the throes of an economic crisis, the most severe since the Great Depression. Unemployment is at the disaster level. But even in better times, chronic unemployment, low wages, myriad unmet needs and unprecedented environmental degradation were endemic. We cannot go back to those “good old days.” The conference will develop goals and strategies to create living-wage jobs for all and meet human needs in an environmentally sustainable economy.

Current Job Crisis Over 30 million workers are already fully or partially jobless. Unemployment may exceed 10% through 2011. This is the most rapid job loss since the Great Depression. Many long-term unemployed will lose benefits, savings and homes.

Weak Stimulus By the Obama administration’s own estimate, the economic stimulus will create only a fraction of the millions of jobs lost since the recession began. Nor will the stimulus stem the continuing job hemorrhage.

“Good Old Days” Even in “good” times: more than 5 million women and men were officially jobless; hidden unemployment afflicted many millions more; poverty wages were rampant, inequality reigned, our infrastructure crumbled; and human services fell far short of needs. We *must* not go back to those “Good Old Days.” Instead, we should be guided by President Franklin D. Roosevelt, who in 1933 said, “*We cannot be content, no matter how high the general standard of living may be, if some fraction of our people ... is ill-fed, ill-clothed, ill-housed, and insecure.*”

Real Reform Now is the time to organize and mobilize to create a just economy-- one that assures living-wage jobs for all, sustains the environment and repairs our social and physical infrastructure.

CONFERENCE REGISTRATION

Registration is \$60 for general admission (or \$50 Early Bird rate before October 30) and \$35 for students. The fee includes continental breakfast and buffet lunch for both days.

NOTE: The Friday dinner is NOT included in the registration fee.
